Please note that all of the itineraries listed in our web site are actual private tour itineraries we have prepared for clients over the past 12-18 months. By the very nature of what we do, each private tour itinerary is custom, exclusive and unique unto itself. Our over-riding goal is to create lifelong memories that you and your family will forever carry deep within your hearts.

### Overview

Similar to Japan, we consider Switzerland to be one of the most meticulously clean and punctual countries in the world. The Swiss values of honesty and hard work are balanced by an emphasis on clean air and an active lifestyle. It is no coincidence that Switzerland is home to many wellness and health spas, as embodied in the mantra “vita borne” or “life from source”/“the source of life”. In addition to the country’s array of 5-star hotels and wellness centers, there are also numerous world-class hiking opportunities. Chocolate lovers have found their home here, as the Swiss are the world’s largest chocolate consumers, per capita.
