

## Kenya & Tanzania Luxury Safari

Please note that all of the itineraries listed in our web site are actual private tour itineraries we have prepared for clients over the past 12-18 months. By the very nature of what we do, each private tour itinerary is custom, exclusive and unique unto itself. Our over-riding goal is to create lifelong memories that you and your family will forever carry deep within your hearts.

### Overview

Though South Africa, Botswana, Namibia, Rwanda, and Zambia may be our favorite high-touch safari destinations over the past few years, we certainly cannot overlook the uniqueness of Kenya and Tanzania’s wildlife areas which include Lewa Wildlife Conservancy, Masai Mara National Reserve Ngorongoro Conservation Area, and Serengeti National Park. There is no roughing it here as the 5-star Sirikoi House, Sanctuary Olonana, Nimali Mara, and Ngorongoro Crater Lodge all offer a custom luxury experience. The flagship wildlife feature of Ngorongoro is the Ngorongoro Crater, home to over 250,00 animals, including the “Big 5”. Complimenting Ngorongoro is the iconic Serengeti National Park and the Mara River in the Masai Mara National Reserve, where, though becoming increasingly less predictable, two million wildebeests usually pass through from mid-June to August.

For our clients passionate about hiking, we may offer a seven-day ascent up Mt. Kilimanjaro via the Machame Route offering the challenge of a lifetime, but much rewarded by a relaxing, luxury safari experience after!

The bright and airy layouts include a seating area in front of a large private balcony, offering natural light and stunning views. Perhaps our favorite aspect of the rooms is the large en-suite marble bathrooms with a traditional tub and walk-in closets! During your time at the hotel, you are welcome to enjoy the cozy home-inspired areas throughout to unwind and relax. The onsite Serenity Spa offers custom and French-style treatments to guests with luxurious locally sourced products. The hotel restaurant, Brasserie, serves breakfast, lunch, and dinner to guests each day and prepares meals for 24-hour room service. The executive chef on-site uses free-range products from local Kenyan farms and likes to create simple yet delicious dishes with a focus on modern European and South Asian flavors. In addition to the Brasserie, Hemingways Nairobi also has a full bar and offers afternoon tea services. Named for the famous classic author Ernest Hemingway, this luxury accommodation in Nairobi focuses on exceptional service and comfort to its guests. Hemingway found inspiration for many of his novels and short stories after spending three months on safari in Africa in 1933. There are three types of accommodation at Sirikoi House: four luxury one-bedroom tents, a two-bedroom cottage, and a three-bedroom house. Being big fans of its sister luxury lodge, Chief's Camp in Botswana, Bev Zen and I were excited to see the opening of Olonana in 2019. Our stay here happily satisfied our high expectations! Sanctuary Olonana is set on a private stretch of the Mara River in the heart of Kenya's most famous wildlife reserve, the Masai Mara. The 14 glass-sided suites feature floor-to-ceiling glass doors that fold open to reveal the spectacular views of the Mara River. The hotel's 30 Victorian-style split level "cottages" offer stunning views of Mount Meru, located just nearby. The hotel itself dates back to the early 1900's and was built with the intention of being the plantation house. Today, all of the 30 cottages are quite spacious and have been decorated to stay in tune with the history and elegance of the building. With cozy home-like furniture such as living spaces and neutral colors as well as wooden beams and luxurious chandeliers, you will feel relaxed and comfortable. ### **Seven-Day Ascent up Mt. Kilimanjaro**

#### **Climbing Mt. Kilimanjaro via the Machame Route**

As the highest mountain in Africa, with its summit being approximately 16,100 feet from its base and 19,341 feet above sea level, it is no wonder why bucket lists of avid climbers and hikers worldwide feature Mt. Kilimanjaro in Tanzania. Kilimanjaro can be hiked all year round; however, we feel it is best to climb when there is a lower possibility of precipitation. The dry seasons are from the beginning of December through the beginning of March and from late June through the end of October. These are considered to be the best times to climb in terms of weather. Please note that large animals are rarely seen and are more frequent in the forests and lower parts of the mountain.

Though there are six main trekking paths used to climb Mt. Kilimanjaro, we feel the nine-day/eight-night Machame Route, with a seven-day ascent, to be the best option. To read more about this journey and day-by-day itinerary, please read our blog post [here](#).
